# Creative senior portraits by Humanature Photography.

## Where “good enough” is never good enough.

Your senior portraits are some of the most important images you'll ever have taken. You should never have to settle for photos that are just “good enough,” especially when you can choose the creativity and craftsmanship you'll find at Humanature Photography in Kirkland.

At Humanature Photography, the bottom line for your portraits is simple: **You want to look great, have fun and feel comfortable** during your session.

Your photographer, Bob Gassen, is one of the leading senior photographers on the Eastside. He is constantly trying new ideas, looking for new locations to photograph at, and developing new products, which keeps him on the cutting edge of high-tech senior portraits. He also knows that a personal touch is important—he can make even the most camera-shy subject feel comfortable and look their very best.

Bob works hard to get you exactly what you want for your senior portraits. He visits with you personally before your session to discuss any ideas you may have and to find out the styles of photography that you and your parents like. During your session, he works with you to make you feel natural and comfortable while incorporating your ideas into the session. You might like simple portraits. You may prefer over-the-top creativity. Your head could already be swimming with a hundred ideas. Or you may have no clue. Regardless, Humanature Photography will work with you to help you get what you really want: great looking images you will be proud to own and share with your friends and family.

# See and experience the Humanature Photography difference. It's all about the picture. But it's way more than that.

Take a close look at all the photos in this brochure. Compare them with those from any other studio. Look at the image clarity. The outstanding color. The incredible sharpness. The posing creativity and naturalness of expression. The variety of photographic styles and looks. No other Eastside studio comes close.

**You can tell these seniors are having fun!** (That's because they *are!*)

Ten years from now, you won't remember your photographer's name. You won't recall how much you paid. You definitely won't know what day of the week you were photographed.

But you *will* still be looking at your photographs, sometimes every day if they are on your wall. Your portraits should be a lasting and positive statement of who you are at this time in your life. They deserve to be *enjoyed*, not just *endured*.

That's why we work so hard to help you and your parents get photographs of you that you'll love. **Not just for now, but for years to come.**

In fact, we are so confident in our abilities, we can offer you the most iron-clad guarantee you'll find anywhere:

***If, for any reason you are not completely satisfied with your original portraits, let us know within one business day and we'll create additional poses to your liking at NO EXTRA CHARGE. Or refund your entire session fee PLUS FIVE DOLLARS!***

Nothing should stand between you and the portraits you really want. **Call right now for your session appointment, before it's too late!**

# Here's why your portraits won't look like anyone else's.

## With variety like this you're assured of a unique look.

Most studios do the same poses over and over, in the same locations, use the same backgrounds and props and photograph everybody pretty much like everybody else.

### Not at Humanature Photography!

You get to choose from eight different types of photo sessions shown here. Most seniors choose two or more sessions for maximum variety. So you get what you want, and your parents can get what they want. And your pictures won't look like anyone else's.

That way, *everybody's* happy.

**NOTE: Choose your sessions *before* you call for your appointment.**

# Making an appointment is easy. But you must act now.

## Every summer appointment will fill up, so don't wait.

Every year the story is the same; seniors who wait to schedule their session get locked out of the best session times and the most advantageous pricing specials.

**Don't let this happen to you. Call right now to schedule!**

Making an appointment at Humanature Photography is as simple as one-two-three.

**FIRST.** Choose the sessions you want (see page 6) before you call. Because each session requires a different amount of time, we can't schedule you until we know what you want.

**SECOND.** Call right away for your appointment. The best times fill up immediately, and the rest of the times fill up fast. Every year we have to turn away several seniors because they waited too long.

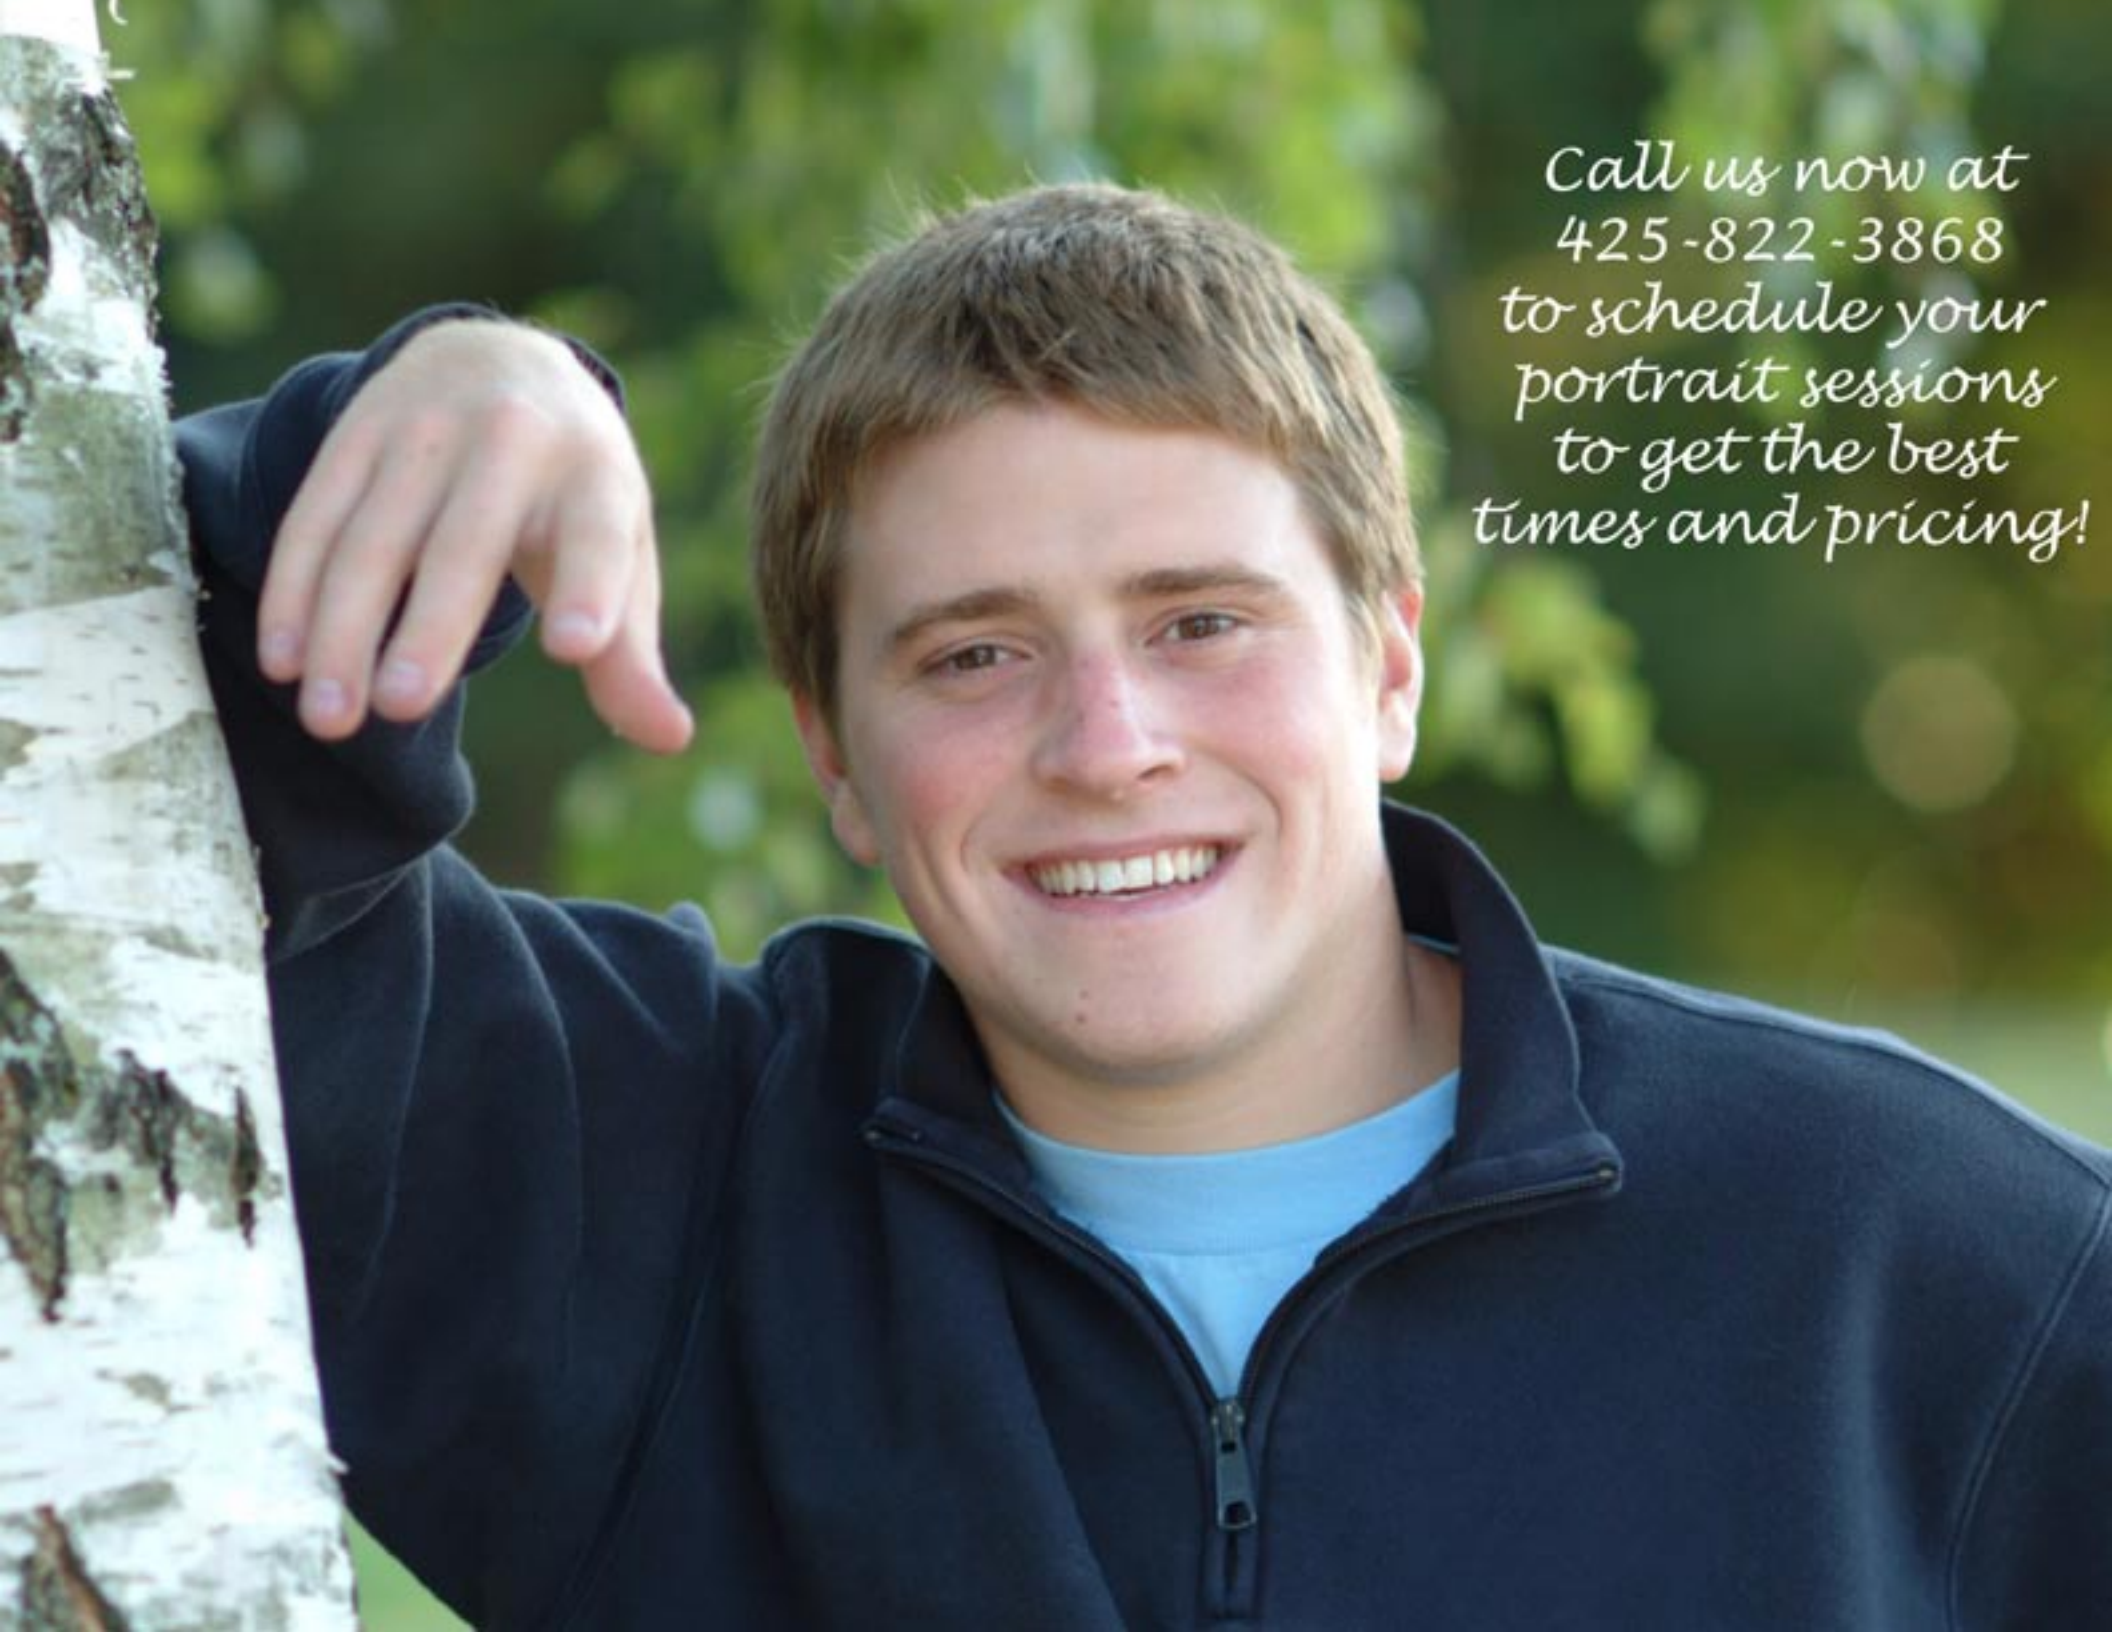

**THIRD.** Let us do the rest. When you call, you will be greeted by our friendly staff who will help find a convenient session time, and answer any questions you may have. That same day, we will mail you a brochure that tells you how to get ready for your session. You'll learn the most flattering clothing to bring, tips on makeup, jewelry, glasses, even how to deal with the dreaded zit. This helpful brochure is not available anywhere else, and is just another reason why more seniors choose Humanature Photography, year after year.

**DON'T WAIT TO CALL.** By making your appointment now, you get the best time, the best savings of the season and one more thing off your summer 'to-do' list. We look forward to working with you, and helping you look your best!
